About Gigas

Gigas is a cloud computing company founded in 2011, operating in the "Infrastructure as a Service" (IaaS) segment

A sector with **significant growth rates** (over 25% per year in Spain and Latam, in the 2014-2018 period, according to Gartner), and consolidation opportunities.

Gigas has developed a **leading edge technology platform** (recognized by Gartner, MSPmentor, EuroCloud, The Cloud Awards and others) with an extremely intuitive and **easy to use user interface** (Control Panel).

Besides Spain, the company has **local offices throughout Latin America** with commercial and pre-sales staff in each country in which it operates, and a very qualified **technical support** in Spanish (24/7), that has been key to its success.

Infrastructure & Technology Partners

Getting the cloud infrastructure as close to the customer as possible is key for user experience, technical and regulatory reasons:

- Own infrastructure in six external data centers, with the highest Security and Availability certifications (Tier III and Tier IV): Madrid (two datacenters), Barcelona, Miami, Santiago de Chile, Bogota
- CAPEX Investment: ~€7.2M in the period 2011-2018
- Ratio CAPEX / Sales down from 1.0x in 2012 to 0.17x in 2017 and 0.11x expected in 2018
- Plan is to continue opening new datacenters, with Mexico probably being the next location

Main Technological Partners:

Cloud Datacenter

The screenshot shows the Gigas Cloud Datacenter website. At the top, there's a navigation menu with options like 'Productos', 'Soluciones', 'Sobre Gigas', 'Partners', 'Blog', 'Soporte', and 'Panel de control'. The main content area features a video player with a play button and a title 'Cloud Datacenter'. Below the video, there's a section titled 'La forma más fácil de desplegar infraestructura cloud' with a description of the service and logos for VMware, SAP HANA, and Oracle. A pricing table shows options for 4, 8, 12, and 16 GPUs, with a total price of 179€ per month. Below the pricing table, there are sections for 'Ventajas del Cloud Datacenter' and '¿A quién va dirigido?'.

- The **Cloud Datacenter**, aimed at medium and large corporates, with **89.3% of total ytd 2018 gross revs.** is the focus of Gigas and continues to grow both in terms of customers and ARPU

Revenue Split per Product

- Cloud Datacenter customers reached **714** at the end of the **Q3 (15 more than Q2'18 and 232 more than a year ago)**, helped by the customers brought in by the SVT and Ability acquisitions

Cloud VPS and ARPUs

- The Cloud VPS segment is very price sensitive. Gigas focuses only on high value customers and trades growing customers for higher ARPU and margins, together with low acquisition costs
- Cloud VPS customers reached 3,243 at the end of the Q3** (21 less than Q2'18 and 124 more than a year ago), helped by the customers brought in by the SVT acquisition (207 VPS customers)

- ARPU continues to grow strong for both segments
- Cloud DC ARPU reached €1,168/mo. during 2018, 9% higher than in 2017**, due to customer upgrades and winning of larger projects
- Cloud VPS ARPU averaged €26.5/mo. during 2018, 4.5% higher than in 2017**

Inorganic Growth

- The cloud and hosting market is dominated by 3-4 large players (c.50% of the market) whereas the other half is extremely fragmented.
- Gigas is exploiting the opportunity to acquire companies with good business customer bases which bring volume and significant synergies.
- **Two companies already acquired this year (January and May) and integration progressing well, with the first phase of integration completed.**

ABILITY

Country: Colombia
Est. 2018 Revenue: €1.63M
EBITDA 2017: €0.4M (25%)
EV: 1.2x sales

- The Company continues to evaluate new acquisition opportunities, both in Spain and in Latinamerica

Revenues 9M18

- Revenues continue to grow strong, both due to organic growth and acquisitions
- SVT and Ability acquisitions contributing to higher than budgeted revenues, despite Ability only consolidating for a bit less than half of the period

Gross Revenues

6.0% HIGHER
Budget €6.75M

Net Revenues

5.9% HIGHER
Budget €5.90M

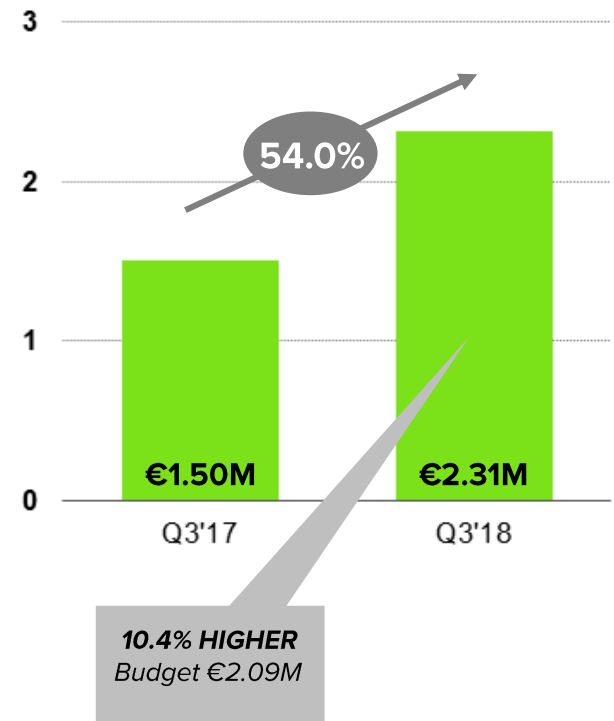

Revenues Q3

- Growth Y-o-Y very significant in the quarter, due to the contribution of **SVT** and **Ability**, which bring in more than half of the growth in the period
- Large customer lost in June impacted results, since it would have added almost €50K in the quarter

Gross Revenues

Net Revenues

EBITDA

- **Much higher than budgeted EBITDA in the quarter, reaching €0.53M**, due to Ability (not included in original budget) and cost efficiencies, including SVT synergies
- A total of €411K of non-recurring costs related to M&A and an extraordinary bad debt provision were accounted in the first half of the year. Without those, EBITDA in the 9M18 would have reached €1.53M, 43.4% higher than budgeted

FY 2018 Guidance Update

- Guidance provided in September, when releasing H1 results was to close 2018 with €9.8M in gross revenues and €8.5M in net revenues, higher than the €9.3M and €8.1M included in Budget
- **The Company confirms such estimates and given the good performance of the past few months believes revenues could be a bit higher**
- **EBITDA for H2 estimated to surpass €1M, closing 2018 with a total of approximately €1.5M in EBITDA (higher than €1.3M budgeted)**
